GREEN

AND

WHITE

Green and White

Published by the

Senior Class

1912

Dedication

TO FRANCIS M. MERICA, the only member of the Faculty, who
has remained with us during our High School Course, this
book is respectfully dedicated.

Greeting

THE "Green and White" extends greetings to the friends and Alumni of the Garrett High School. Our object in publishing this book is to give the public an insight into our school life. This is the first attempt to issue a year book in this school and we hope that our inexperience will be considered in judging its merits.

The Senior Class of 1912 extends its thanks to the business men of Garrett and to our other friends who have aided us in this undertaking.

GARRETT HIGH SCHOOL BUILDING

The Garrett High School

THE Garrett High School, department of the Garrett Public School, is commissioned by the State Board of Education for four years' work and is at present offering the following courses: Four years in English, four years in Latin, four years in Mathematics, three years in History and two years in Science together with Music and Art.

The High School was organized in the fall of 1880 and graduated its first class of three members in the spring of 1885. And each year since a class has gone forth and now the total roll of graduates numbers 186.

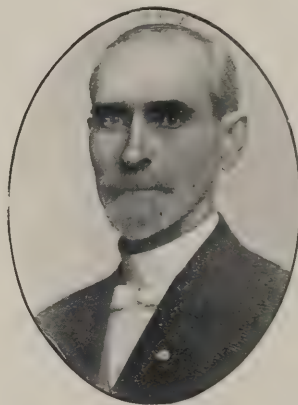

The present building was erected five years ago at a cost of \$25,000; it is thoroughly sanitary, well heated and lighted and now so equipped that the very best of work is being done. The pupils enrolled now number over 100 and three teachers give the whole of their time and four a part of theirs to High School instruction.

The High School gladly opens its doors to the graduates of rural schools and many from DeKalb County and a few from adjoining counties have taken advantage of this and are numbered among those who have done good work with us.

School Board

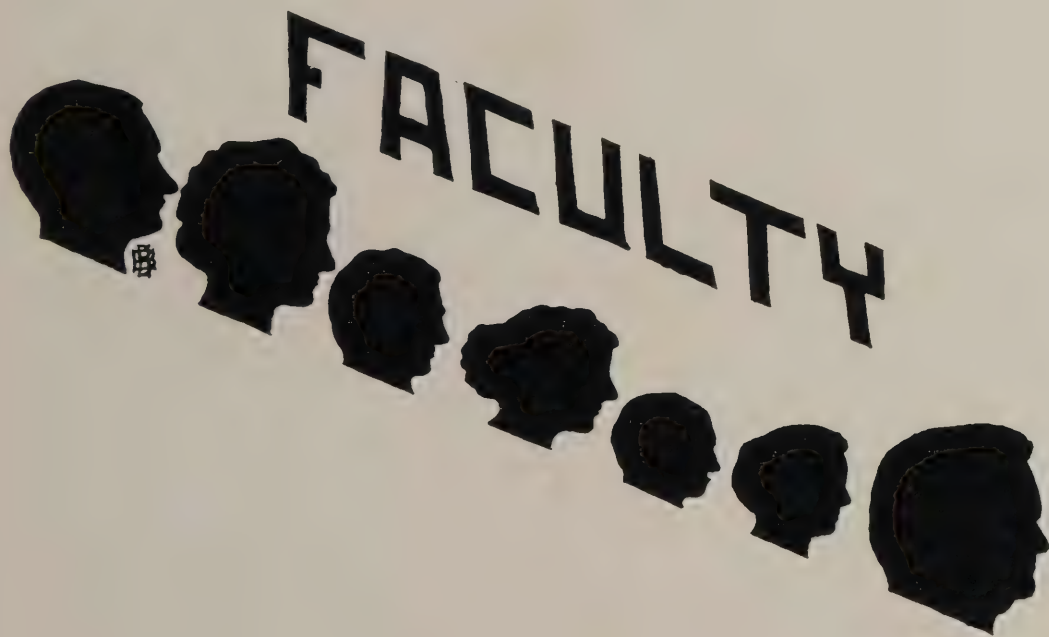

DON E. VANFLEIT, Secretary

DR. J. F. THOMSON, President

WARREN McNABB, Treasurer

FRANCIS M. MERICA... American History and Civics

FRANCIS M. Merica, Superintendent of the Garrett Public Schools, was born in Millerstown, Ohio, Feb. 28, 1862. His parents moved to DeKalb County, Indiana, when he was two years of age and he later attended the rural schools at Butler Center. He then taught several terms in his home school and was a student at Valparaiso University during vacation. He was graduated from the Fort Wayne M. E. College in 1886 and then taught for ten years in the Garrett Public Schools. In 1897 Mr. Merica received a Ph. B. degree from the University of Chicago after a year's work there. The next year he moved to LaGrange, Indiana, where he was superintendent for three years. In 1901 he was elected superintendent of the schools at Wauwatosa, Wisconsin, which position he occupied for four years. He then returned to Garrett where he remained for the past seven years.

Mr. Merica began teaching when he was seventeen years of age and has remained in the profession ever since, either in the capacity of student or teacher.

JAMES H. GREENE—Science and Mathematics.

James H. Greene, principal of the Garrett High School was born in Dubuque, Iowa. He was graduated from the local High School there and spent two years in the University of Chicago. In 1908 he received a B. S. degree from the University of Illinois. In 1910 he accepted a position as teacher of Latin and Science in the Garrett High School and in January was promoted to the principalship, and for the past year has taught Mathematics and Science. Mr. Greene spent the summer of 1911 at the University of Illinois where he took graduate work in Chemistry.

GERALDINE SEMBOWER—English.

Geraldine Sembower, instructor in English, was born in Garrett, Indiana. She attended the Garrett Public Schools and was graduated from the High School in 1901. In 1905 she received the A. B. degree from the University of Indiana. Then, for six years, Miss Sembower taught the second and third grades in the Garrett Public Schools and this year accepted a position as teacher of English in the High School here.

GROVER C. ANDREWS—Latin.

Grover Andrews was born near Conneaut Lake, Penn. He attended the rural schools there, and later was graduated from the Conneaut Lake High School. He then studied at the Alden Academy and in 1910 received an A. B. degree from Allegheny College. In the same year Mr. Andrews came to Garrett and has been a teacher in the High School since then.

MAUDE E. CAMP—Mathematics and History.

Maude Camp was born in Garrett and has spent most of her life here. She was graduated from the Garrett High School and spent a year at Washington College and a year at Oxford. For the next two years she was a student at Indiana University from which she received an A. B. degree. During the years 1909-'10 Miss Camp taught in the fourth grade in the Garrett Public Schools, and the following year was instructor in Mathematics and History in the Auburn High School. For the past year she has been instructor in Mathematics and History in the Garrett High School.

WILL FRANKS—Ancient History.

Mr. Franks was born in Wooster, O. He attended the rural schools there for a few years and then became a pupil at Corunna, Indiana. After completing his work there, he became a student in the Auburn High School for two years. Later he studied for a year at Valparaiso University. Mr. Franks has been in the profession for many years, teaching his first term of school in 1878 in Noble County. For five years he was employed in the Corunna schools and in 1887 moved to Garrett, where he has taught since that time. Mr. Franks is the regular eighth grade teacher and has only one class, Ancient History, in the High School.

BESSIE M. BERRY—Music and Art.

Bessie Berry was born in Plymouth, Illinois. Her first education was received in the rural schools near there. Then for four and one-half years she attended the Normal at Macomb, Ill. Miss Berry has had three years' experience in teaching; one year in the grade work at Plymouth and two years as teacher of music in Independence, Kansas. For two years she has taken summer work at Northwestern University, from which institution she will be graduated next year. In addition to her work as Teacher of Music and Art, Miss Berry acted as coach of the Girls' Basket Ball teams during the past season.

CLARK SPRINGER—*Chick*.

G. H. S. (1) (2) (3) (4). Class President (3) (4). Base ball (1) (2) (3) (4). Capt. (2). Student Manager (4). Basketball (4).

Editor-in-Chief of Green and White.

In Huntington, Indiana, at some remote period of time, Clark was thrust upon an unsuspecting world. Through an oversight of the teachers, he entered the G. H. S. in 1908, and in his Junior year his classmates elected him class president. Clark has always been very prominent in Athletics. Throughout his whole career he has also belonged to the "married coterie" of our class and when a pretty Sophomore lass left town in February the whole school sympathized with him in his sad bereavement.

MARION MERICA—*Rose*.

G. H. S. (1) (2) (3) (4). Class Secretary (4). Senior Basketball (4). Capt. (4).

Biography Editor of Green and White.

Marion was born in Garrett. Nough said. She has been one of our bright and shining lights, although her department grades have been termed "punk." In the Sophomore year, her translations of Caesar were the envy of the class. She is something of a kodak fiend and we feel her success in this line due to a member of the class of '11. We picture her a brilliant future in the realms of household affairs—with a side interest in electricity.

MARIE CREVISTON—*Mary*.

G. H. S. (1) (2) (3) (4). Class Treasurer (4). Senior Basketball (4).

Society Editor Green and White.

Marie came to us from the "Gopher State." Her sweet disposition has made her a favorite with all who knew her. Her great failing is her desire for exercise and her gentle footsteps as she walks around the assembly room in search of knowledge will be greatly missed. Marie is very fond of literature and considering her great ability as a theme writer it is not strange she fancies a rising young poet of Auburn.

GEORGE CARLSON—*Yorkey*.

G. H. S. (1) (2) (3) (4). Baseball (1) (2) (3).

George was born amid the hustle and din of Chicago. After six years however, the city was unable to afford space enough for his increasing stature, so he tried Europe for sixteen months, then moved to "Indiana's Attic." "Yorkey" has a very amiable disposition and his greatest pleasure is found in performing experiments in Physics, especially those not specified in the text book. The myth of Thor's hammer is daily brought to the minds of the students as he crosses the assembly room.

FLOYD CREEL—*Heinze*.

G. H. S. (1) (2) (3) (4). Class Secretary (3). Quartet (3) (4). Orchestra (2) (3) (4).

Heinze began his career in Garrett. For four years he has been a member as well as a pest of the G. H. S. The convenient deaths of his many grandmothers explained all absences and rendered him a grief-stricken lad. He is a notorious "ladies' man." His love affairs are numerous and short lived. We know that the G. H. S. and Faculty especially will miss his undeniable genius as a poet. When the passing Senior feels the call of the sweet tooth, Heinze and his wonderful sea foam will be fully appreciated.

FLORENCE DOBBRICK—*Dobby*.

G. H. S. (1) (2) (3) (4). Senior Basketball (4). Class Treasurer (3).

Florence was born in Gallien, Ohio, but when she was eleven years old she moved to Garrett. We used to think she was very shy but she has gotten bravely over it. "Dobby" is wee but pugilistic by nature and much given to "swatting." She has never been known to flunk in a recitation. Unusual record! After her Domestic Science course she will be well fitted to act as reigning Goldress over any man's household.

WALTER ERICKSON—*"Red."*

G. H. S. (1) (2) (3) (4).

Walter first looked upon this cold, bleak world in Garrett. The date of the great event is unknown, but it was less than fifty years ago. He is the "orator of the Senior Class" (?) and his efforts on Rhetorical days have caused both himself and his audience a great deal of anxiety. "Red" is very uncommunicative and his deportment grades uphold the honor of the class. He is very active in class meeting, inasmuch as he once moved that the meeting adjourn.

CLARA HILL

G. H. S. (1) (2) (3) (4). Senior Basketball (4).

Clara, like many of her illustrious class mates, was born in Garrett. She is one of the best musicians in G. H. S., and her performances on the piano are worthy of high praise. She is very fond of talking and the spirited conversations in which she indulges during study hours are the despair of the teachers. Clara may often be seen standing on the veranda at night, looking toward Auburn, but says she is not star gazing, but looking for the "Muh.".

GERTRUDE MAURER—"Gertie."

G. H. S. (1) (2) (3) (4).

Gertrude was born in Fort Wayne. City life, however, proved too strenuous for her so she moved to the quieter neighborhood of Garrett. She always looks upon the bright side of life, and her winsome smile is noticed by every one who enters the Assembly Room. Although she is rather shy and has never been active in the social or business of the class, we predict for her a successful career when she joins the ranks of the pedagogues.

FRANK Mc'ULLY—"Cully."

G. H. S. (2) (3) (4).

September 16 will probably be a memorable day in the history of the world, for on that day Frank was born near Garrett. He did not join the class of 1912 until its Sophomore year, but throughout his shortened course has had the enviable reputation of being the best "bluffer" in the class. Frank was formerly very bashful, but long association with his classmates has overcome this difficulty and when he leaves the G. H. S. the teachers will greatly miss his many questions.

EDITH MCNABB—"Fran."

G. H. S. (1) (2) (3) (4). Treasurer of G. H. S. A. A. (4). Orchestra Quartet G. H. S. (3) (4). Pianist (3) (4). Senior Basketball (4).

Jokes Editor of Green and White.

Edith's history began March 8th in Garrett, where she has acquired all of her education. She is very fond of music and her gentle voice may be heard at all hours in the Assembly Room. Fran, as she is commonly called, is one of the most popular girls in the class and her numerous love affairs can scarcely be counted. She has a very artistic temperament and is exceedingly fond of flowers, particularly sweet "Williams."

CORA MILLER—"Cory."

G. H. S. (1) (2) (3) (4).

Cora is our fair representative from the Buckeye State. She is naturally a quiet girl and her sense of humor has often been severely taxed to be able to produce even a faint smile at some of the antics of her classmates. She is very studious and her labors are never interrupted, even amidst the bewildering "din" of the "Assembly Hall." Cora expects to spend the remainder of her days on a ranch in Kansas, owned by a cowpuncher who is a "Shoemaker."

VERA SILLIMAN.

G. H. S. (1) (2) (3) (4). Basketball (4).

Vera is not a Hoosier by birth, but was born in Bryan, Ohio. From the time when she entered High School as an innocent Freshmen until she leaves as a learned Senior, the teachers have found it difficult to believe that she is indeed a member of the class of 1912, for, unlike most of her classmates, she is extremely shy and quiet. Vera cares but little for society and loves, more than anyone else, her little sister.

CLAUDE WARNER—Percy.

G. H. S. (1) (2) (3) (4).

Claude came to us in our High School infancy, namely the Freshman class. He has been a noble young man during his sojourn with us. In his Sophomore year he assumed eye glasses which added greatly to his dignity. He never fancies the girls, but it is rumored that he was interested in a pretty Sophomore. The business world will no doubt receive the benefit of Claude's talent when he has left the G. H. S.

EARL PROBST—Johnny.

G. H. S. (1) (2) (3) (4). Orchestra (2) (3) (4). Quartet (3) (4).

Earl first favored this world with his presence in the wild and woolly country south of Garrett. He possesses an extraordinary zood temper and because of his cheerful disposition is well liked by every one—especially the girls. Johnny is particularly fond of Latin and all his spare moments are spent in translating pages of Caesar and Cicero (! ! !)

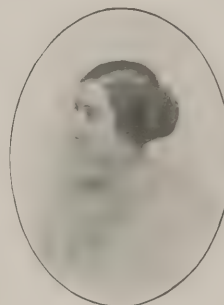

He is naturally very studiously inclined, but his great trouble arises from lack of time for application.

NELL SCHULTHEISS.

G. H. S. (1) (2) (3) (4). Senior Basketball (4).
Business Manager of Green and White.

Nell was born in Garrett and throughout her High School course she has been one of the most important decorations of her class. She is a lass of many moods, and her reputation as a scholar varies with the weather.

Her "red" hair and her blue eyes have caused many masculine hearts to palpitate. (Particularly those from the nearby city of Auburn.) Nell's ambitions know no bounds. Her career as a designer of ladies' headgear is assured—unless she gets married.

History of the Senior Class

On September 7, 1908, thirty-eight Freshmen entered the sacred portals of the Garrett High School. Under the careful guidance of Mr. Gates we learned the ever memorable amō amas ama while Mr. Franks guided us through the intricacies of Ancient History and Mr. McCann helped us solve the difficult problems of Freshmen Algebra. Mrs. Jones (now Mrs. Greene) was compelled to leave at the end of the first term because of ill health and Miss Bower succeeded her as English teacher.

Although several became discouraged and left, on September 7, 1909, we once more assembled as Sophomores. Miss Bickle succeeded Miss Spencer as teacher of Music and Mr. Merica in his History classes explained to us the growth of nations in modern times. It was in the tenth grade that we gained our great reputation as brilliant students.

We entered the Junior year fully convinced that High School life was enjoyable despite its trials. Our number had dwindled to nineteen. In October we organized the class and elected Clark Springer president. Mr. Gates left us at the end of the Sophomore year and Mr. Greene took his place. At Christmas Mr. McCann was forced to resign because of ill health and Mr. Greene was advanced

to the principalship, while Mr. Andrews was employed as Mathematics teacher. The Junior year was marked by numerous social events, chief among which was the reception for the Seniors at the home of George Carlson.

In 1911, as dignified Seniors, we assembled for the last time. There were sixteen of us, as large a class as ever graduated from the G. H. S. Miss Bower and Miss Bickle had not returned and Miss Sembower took the former's place as teacher of English, while Miss Berry was in charge of the Music and Art. Miss Camp was employed as an additional teacher of Mathematics after the first month. In September the class was reorganized and Clark Springer re-elected president. Early in the year we began preparations for the publication of our Annual, the first ever attempted here.

Throughout their whole year the class of 1912 have been noted for their energy and ambition. Despite the fact that we have been somewhat given to low deportment cards, our reputation as students has not diminished. The class has been especially prominent in social affairs, and as we bid farewell to the dear old G. H. S., we all sincerely regret that we must discontinue the fond associations of High School days.—(Marion Merica.)

History of Junior Class

BY no means are we hoodooed simply because we hear the ominous sounding name of 1913. In fact we count 13 as our luckiest number and diffidently attribute our genius to it, for have we not always been known as a brilliant class?

Thirty-four of us "climbed the stairs" for the first year's work. We applied ourselves with all the zeal that Freshmen can muster up.

Mr. Gates started us out in Latin, Mr. McCann in Algebra, Miss Dana Bower in English, Mr. Will Franks in Ancient History and Miss Bess Bickle in Music and Art.

Toward the middle of the year twelve, becoming weary because of close confinement (?) finally dropped out. At the beginning of the Sophomore year only nineteen of us appeared. We were somewhat disappointed at this small number but determined to make the best of it. During this

year Mr. Greene took the place of Mr. Gates. Mr. Merica instructed us in Modern History and Mr. McCann remained until the New Year, at which time he was succeeded by Mr. Andrews.

By the end of the second year seventeen were left and with this number we commenced our Junior year. Miss Sembower has succeeded Miss Bower (now Mrs. Haines) as our English teacher, Miss Berry has taken Miss Bickle's place and we now have Mr. Greene as instructor in Geometry and Physics, while Mr. Andrews teaches Latin.

We have elected Carl Weaver, president, Thurman Cole, secretary and Julia Baker, treasurer. Our one aim this year is to prepare ourselves so thoroughly in every thing within our reach in the High School, that when the time comes to us one year from next May to call ourselves graduates, we will be able to go more easily "from the life of school to the school of life."—(Mildred Camp.)

History of the Sophomore Class

With over forty students, the largest class that E, the class of 1914, began our career as Freshmen had ever entered the Garrett High School.

We were instructed in our different studies of the Freshman year by Mr. McCann in Algebra, Mr. Greene in Latin, Mr. Franks in Ancient History and Miss Bower in English, while Miss Bickle conducted the Music and Art. At the end of the first term, the Faculty was somewhat changed as Mr. McCann resigned his position as principal and Mr. Greene took his place. Mr. Andrews was appointed to instruct the students in Latin.

As Freshmen we were a bright, jolly and ambitious class. We all did very well despite the many difficulties that Freshmen must endure.

On September 6, 1911, we again entered the High School. We were all very anxious to come back, although our class had been diminished to twenty-nine. The Faculty had changed again as Miss Bower and Miss Bickle had not returned and Miss Sembower and Miss Berry took their places.

This year our class has done well and we have taken important parts in Athletics. One of our members was elected secretary of the Athletic Association and we have furnished captains for several basket ball teams.

We are usually a well-behaved and much-admired class and we hope to keep this fine reputation when we assemble next year as "Jolly Juniors" and to retain it until we are graduated as "Imperial Seniors."—Marie Odenkirk.

History of the Freshmen Class

Freshmen will be Freshmen,
No matter where you go,
They must break rules now and then
Or else they'll be too slow.

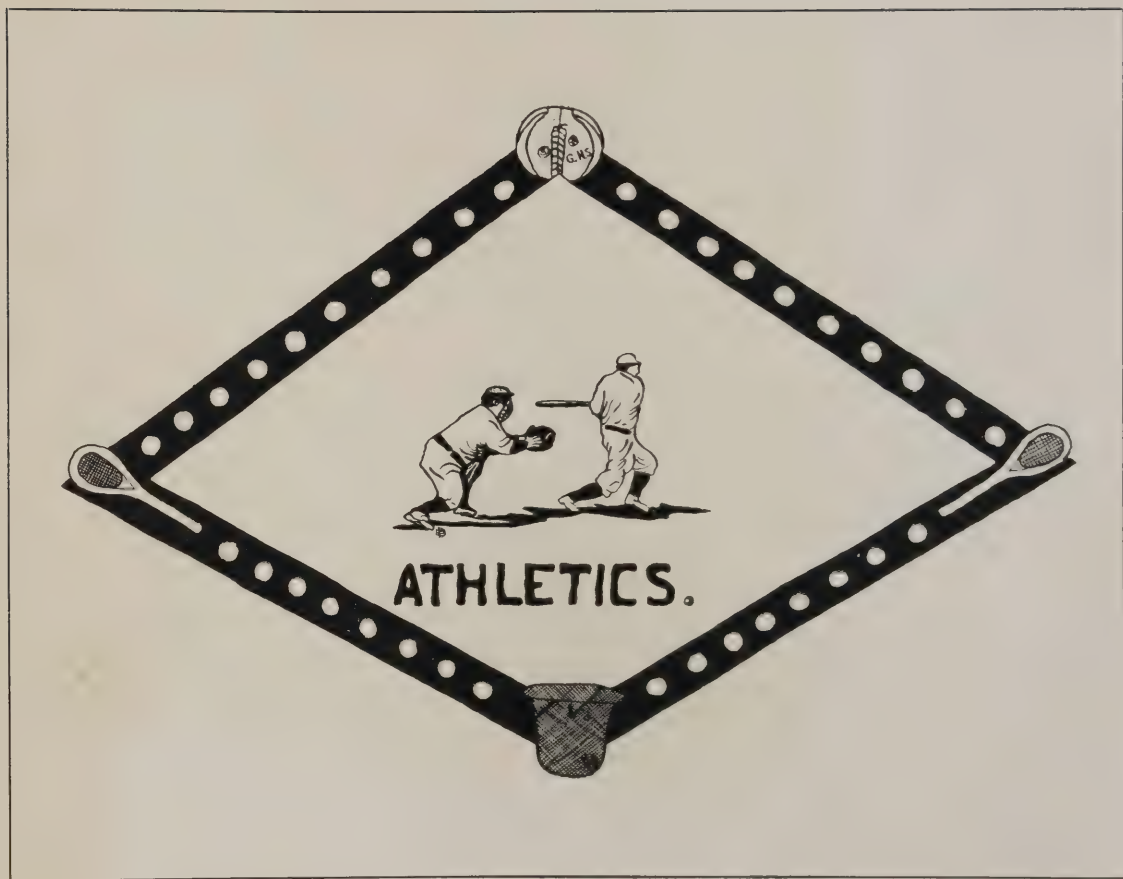

IN the fall of 1911 over forty sturdy young Freshmen entered the High School fresh from the eighth grade with all the glory of their recent conquest upon them.

We were instructed by Miss Camp in Algebra, Miss Sembower in English, Mr. Andrews in Latin, Mr. Franks in History.

We were a very ambitious and important class. At the beginning of the term the teachers stood ready to help us in all things. The Sophomores, in all the glamor of newly-

found dignity thought it not beneath such dignity to cast haughty unbending looks toward the Freshmen. Even the mighty Seniors engrossed in their books could not resist sending supercilious glances in our direction part of the time. But did this disturb us? Oh! No! we are the class of 1915. We thought it not strange that a newly-rising sun should be the "attraction of neighboring eyes."

We are very grateful to our teachers who have so kindly assisted us and with their help we hope next year to attain the dignity of Sophomores.—(Edna Kemp.)

Athletics

THE place of Athletic and out door sports in school life was not appreciated in this school until about a year ago. Although there were baseball teams each year, they had played few games and without much success. However in the spring of 1911 we felt that something was lacking along this line and we joined the I. H. S. A. A. We then organized a ball team and purchased suits. This year with plenty of good material, we expect to turn out a team that will be a credit to the High School.

An attempt to organize a football team this fall failed

because of the rule which required the written consent of our parents.

Basket ball and tennis were played while some time was also spent on the track work.

The Athletic activities are controlled by the High School Athletic Association.

Athletic Association—President, CARL WEAVER.
Secretary, FRED THOMPSON.

Treasurer, EDITH McNABB

Baseball

THE baseball season of 1911 marked a new era in the Athletics of the G. H. S. Early in the spring we joined the Indiana High School Athletic Association and elected Chester Clark captain and Harold Talbert manager of the baseball team. Games were scheduled with Churubusco, Auburn, Ligonier, Waterloo and the local White Sox. Although the season was not a success in the number of games won, a firm foundation was laid for the future teams of the High School. Much credit must be given to Coach Brink for his work with the team and what success we had was certainly due to his skill and advice. Clark, Shrock and Van Fleit were lost by graduation and McCullough has left school, but there is much new material at hand and we will, without doubt, have a strong team for the coming season.

DON VANFLEIT, L. F., GERALD BOYLES, 2B., CARL WEAVER, P., CHESTER CLARK, SS., CLARK
 SPRINGER, 1B., HARRY LANDIS, 3B., ROBERT McCULLOUGH, C. F., LOWELL BOWERS, R. F.,
 CLINTON HERSH, SUB., MONROE SHROCK, C.

AUBURN 18, GARRETT 9.

On April 15 we met Auburn on our home grounds in the first game of the season. The game was played in a sea of mud and resulted in a victory for Auburn. Our boys were completely lost on the wet grounds and showed a lack of practice and team work. Shrock, our regular catcher, being out of the game, Springer went behind the bat and Carlson played first base.

GARRETT 21, LIGONIER 7.

The game with Churubusco was cancelled by Churubusco and on the following Saturday we journeyed to Ligonier. Bowers our "infant twirler" (with apologies to the Auburn Courier) was in the box and aided by the heavy hitting and brilliant base running of his teammates won his own game easily.

AUBURN 8, GARRETT 4.

On April 29 we went to Auburn to play the return game. Like the first, this game was played on a wet field. A number of hits and errors gave Auburn six scores in the first inning. After this our boys played them to a stand still and by a great rally scored four runs in the last inning. Bowers was hit rather hard but great work in the outfield kept the score down.

GARRETT 12, WATERLOO 3.

On May 6 we played at Waterloo and defeated that team 12 to 3. Shrock went behind the bat and Springer returned to first. Weaver pitched a great game and was given excellent support by the team. The game was featured by the great outfield work of McCullough and Bowers.

WATERLOO 7, GARRETT 1.

Waterloo played a return game here May 13 and won 7 to 1. Weaver pitched good ball but errors lost the game. Hanke was in the box for Waterloo and our boys could not solve his pitching.

WHITE SOX 4, GARRETT 3.

On the following Saturday we met the local White Sox in the best game of the season. Weaver was in the box for the G. H. S. and "Cy" Young did the twirling for the White Sox. Both pitched a good game. Our boys outhit the White Sox but could not bunch their hits effectively.

GARRETT 9, WHITE SOX 5.

On May 27 we met the White Sox in the last game of the season and won 9 to 5. Sapp, who was in the box for the White Sox, was hit hard by the High School boys. Clark being out of the game, McCullough played short, Hersh was put in right field.

Boys' Basketball

TWENTY students responded to the first call for basketball candidates, and became quite enthusiastic about the game. There were two teams organized with prospects for a third. Fred Thompson was chosen captain of the first team.

As no hall could be secured, there were no outside games scheduled, but the two teams played several exciting games on the out door court. Although the "scrubs" were usually defeated, they always put up a hard fight against their heavier opponents and their games aroused much interest.

First Team.

Cobler	Sub.

Girls' Basketball

SOON after the boys had organized their team, the girls of the Senior class organized and were the first girls to use the court. The Juniors and Sophomores followed a short time afterward.

Miss Berry coached the teams and from her they learned the rules and regulations of the game. After school hours, as long as the weather permitted the court was in constant use and several games were played between the teams. But as the snow and winter weather would not permit outdoor practice and on account of their inability to secure a hall, they were forced to abandon the game with all its bright prospects until some future time.

MUSIC

Music

THAT music fills an important place in the Garrett High School is practically shown by the fact that throughout the entire school life, it is considered and also graded as a separate study. The Orchestra has been organized for only three years, but during that time a great deal of practice has been done and the fourteen members of this organization have often appeared in public, and furnished excellent music. The

During the last few years the department has been divided into several organizations, such as the chorus, the orchestra and the quartette. commencement exercises would seem incomplete without their presence.

The Garrett High School Chorus consists of one hundred and ten voices, all the students being compelled to take part, although it is possible to spend an hour every night for practice, a great interest is taken in the work and the presence of the chorus has been requested at various entertainments. Last but not least, is the G. H. S. Quartet, of which we are very proud. In 1910, under the leadership of Miss Bickle, a double quartet was organized. The members were Edith McNabb, Pearl Dennison, Mildred Camp, Lura Marvin, Floyd Creel, Earl Probst, Carl Weaver and Gerald Boyle. Their first public appearance was at the concert given by the H. S. and the numbers won great approval.

In 1911, under Miss Berry's instruction, the present quartet was organized, the members being, two Seniors and two Juniors. Edith McNabb, Earl Probst, Mildred Camp, Carl Weaver.

During the first term they spent a great deal of time in practice and when, at the 'Teachers' Institute they appeared for the first time in 1911, they were enthusiastically applauded.

However the applause with which the G. H. S. Music has generally been received, has not been gained without very hard and sometimes tedious practice and often both student and instructor have become somewhat discouraged. To Miss Berry, who is the instructor of the three organizations, we owe our gratitude and appreciation for the untiring effort she has put forth during the time she has been with us.

Top row, left to right: Thurin Cole, Edith McNabb, Carl Weaver, Miss Berry, Archie Childers,
 Middle row: Harry Landis, Marjorie Nell, Mauring Clevenger, Ruth Sweeney, Lowell Bowers,
 Bottom row: Bert Martin, Oakley Cobbler, Earl Probst, Athmar Moore.

SOCIETY

The Social Life in the Garrett High School

IF it were not for the social affairs that make bright phases in our everyday life, would we know and appreciate each other's society, or would there be a feeling of good friendship among our High School classes? We would feel that life held little for us; if our care could not be sometimes laid aside and our whole attention given to the joy of the moment.

Our High School, at present, has but one annual social function, that being the Senior reception held in the spring. In the spring of 1911 the Senior reception was held at the home of George Carlson '12. Those present were members of the Senior and Junior classes, the faculty and a few out-of-town guests. The reception was regarded as one of the most memorable events of the school life by the passing seniors.

One of the novel events of the year was the week-end party at Lake Gage. Mr. Merica entertained the entire class of '12 at his lakeside cottage. Fishing, boating, bathing, nutting, snapshots and midnight beach parades occupied most of the time. On the return trip the whole countryside rang with the rah! rahs! and class yells. When they reached Garrett they had just voice enough for a farewell.

The girls of the Senior class honored the boys with a "kid party" at the home of Marie Creviston. The girls came in short frocks and hair in curls, the boys in knee breeches and blouse waists. "Heinze" and "Chic" attended in feminine attire and were the belles of the evening. After a "tea party" and some flash lights, all the guests departed. Did I say all? Well, nearly.

Has Othmar Moore?

If Maude Camp is white,
Is James H. Greene?

If Miss Berry drew a flower,
What did Mr. Andrew?

If the house is wood,
Is Florence Dobbrick?

If a bell tolls,
Does Marjorie Nell? (Knell)

If a doctor operates,
Does Ruby Lantz?

Jokes

Mr. Greene (assigning chemistry lesson): You may finish chapter three and then read chapter twelve.

One of Our Bright Students: Which is twelve?

Mr. G.: The one after eleven.

Mr. Merica, (discussing results of local option election): I think the Third ward will be as large a majority wet as the First.

Othmar M.: Oh no, all the respectable people live in the Third ward.

Mr. M., (who is a resident of the First ward): Well!!!—?!!

Mr. Andrews, (Virgil Class): What was Mt. Ida?

Brilliant Senior: A summer resort. The same brilliant senior when asked to translate "Penates" (household gods) replied, "Peanuts."

Heinze (after Senior class party): Frau, did you hear about the disturbance last night?

No; what was it?

Heinze: Why, the people heard an awful noise and when they looked out of their windows they saw a lot of lemons rolling home alone.

Mr. Andrews (Latin 10): Of course I know that those slips of paper that most of you have in your books are merely book marks, but I would much prefer you wouldn't use them.

Miss S. (On Eng. '12) How much ground did Macauley intend to cover on his history of England?

Frank Mc. About twenty-seven acres.

Mr. Greene to Clark and Marion.—If you people can't stop fighting I'll have to put you in separate cages.

Miss Sembower (In Sophomore Eng. reading a theme) "As the nurse walked down the hospital ward she stopped to smooth a few tumbled pillows or say a few kind words."

The unattentive Buford. What did she stop to sooth a few tumbled pillows for?

Edith Mc. (in a stage whisper turning around to attract Marion's attention.) Say— — —

Mr. Greene (behind her.) Did you want me Edith?

Clark Springer (In translating Virgil.) The hollow halls howled with women's shrieks.

Two Seniors (discussing Mr. Greene as a chemistry teacher).

First Senior—Do you think Mr. Greene is a very good chemistry teacher?

Second Senior (A fond admirer of Mr. Greene.) Well I should say, why, he could turn the milk of human kindness to lactic acid.

Jokes, Continued

Miss Sembower and Mr. Andrews at ball game between Auburn H. S. and Garrett H. S.

Mr. Andrews—I think Carl Weaver will be our best man.

Miss Sembower.—Oh, Mr. Andrews, this is so sudden.

Marie C. (Translating Latin): "Oh! all powerful Junior," (Jupiter.)

And this from a Senior.

Miss Camp (History '10.) The preachings of Pretzal (Tetzal) induced Luther to do this.

A POEM.

Little wads of cotton,
Little rolls of wire,
Make the lovely figure
All the boys admire.

Mr. Greene (in chemistry.) The pressure on the body is always the same.

Earl P. Sometimes it isn't.

Miss Camp, in Geom.) I want you to have both cases to that proposition.

Floyd Creel. Oh, I can't have two cases at once.

Clark Springer (in Lab.) Edith, what are you holding your hands over that bottle for?

Edith Mc. Why, I'm holding the air in.

Fred T. (In Eng. Class, after asking permission to borrow a pencil.) I don't like this kind.

Miss S. Well, beggars must not be choosers.

Marion M. What figure would you draw for this experiment on electrolysis?

Mr. Greene (in haste.) Why, the apparatus.

Marion (aside.) What do you suppose he thought I would draw, a man?

George C. (In Chemistry.) The temperature "highers" the volume of gas.

Mr. Merica (In Civics?) What qualification must a person have to sit on a jury-man? (jury.)

Class.—Laughter.

Miss Sembower. What are the troubles of youth?

Clark S. Girls, mostly.

Mr. Greene (In Chemistry.) Why don't we all burn up?

Floyd C. We are too green.

Miss Sembower. Carl Weaver, what is the meaning of Renaissance?

Carl, who had not been listening, commenced to think, while several near him whisper, "Rebirth." Finally not wishing to use the exact words of his neighbors, calmly answers, "Born Again."

Jokes, Concluded

TRIALS AND TRIBULATIONS FOR THE SENIORS.

All's quiet among the Seniors today,

For the teachers are all on a tear.

Not a sound can be heard by those who stand guard

Save the band and the noise of the fair.

"Chic" Springer is moved to a seat near the desk,

"Heinze" Creel to the front where the straight-faced must die.

While Mary and Frau, with tempers disturbed

Are planning against this injustice to cry.

But wait till this noon when our cards are turned out,

And the "flunks" of our grades we behold,

We'll all in a band against tyranny stand

And cry "down with the usurpers bold."

Geo. C. (in Geometry, after drawing a very good looking prism on the board.) What do you call this thing?

Miss Camp. Why, a prism.

Geo. C. (writing on the board) let the prim A-B-C-D etc.,
Laughter.

Mr. Greene (in Chemistry.) This experiment should be done under a hood.

Floyd C. "Put On Your Old Gray Bonnet."

"ODE TO THE FRESHMEN GIRLS."

Blessings on thee little girl

With large ribbons and flowing curls,

With thy dress above thy shoes

Fairly gives poor me the blues.

With the red lips redder yet

With the paint which I detect.

With the sunshine all bedabbled,

On thy face which is enameled.

As a picket at the gate.

You're a full fledged suffragette.

Onward shine little girl

But don't forget that dangling curl.

— Floyd C.

Virgil class assembled in class room. Mr. Andrews called

on Clark Springer to recite.

Clark (reciting.) And thrice I threw my arms around her.

and — That's all the further I got.

Mr. Andrews. Well, I think that was far enough.

Floyd C. Gee, I feel sick.

Clara H. So do I. I have been taking medicine all A .M.

Clark S. (watching girls' basketball team.) Guard your man there; don't let her throw.
